Dear Parents/Carers,

There is a website which we have become aware of called 'Omegle'. It allows children to register free of charge without age verification and allows children to speak face to face with strangers from around the world via their phone/laptop camera.

This obviously has massive potential for online abuse in terms of emotional and sexual and we urge you to check your child's phone and ensure that they are not accessing it.

More information about the site can be found here:

Many thanks for your support,

Miss Whiteside
